South Africa · managed account ADVISED	SA Momentum 7 funds plus portfolio cash · goal: Gabi Education	ZAR	R 275,321.65	96.5% invested
South Africa · wallet CASH — AVAILABLE TO INVEST	Cash to invest or withdraw	ZAR	R 9,986.47	3.5% waiting
Global · managed account ADVISED	Global Core 3 funds plus portfolio cash · goal: Retirement	USD	\$ 48,559.66	97.9% invested
Global · execution-only account NO ADVICE	1 direct security bought without advice	USD	\$ 915.60	—
Global · wallet CASH — AVAILABLE TO INVEST	Cash to invest or withdraw	USD	\$ 1,083.15	2.1% waiting

Your **managed accounts** hold portfolios we advise on; each may hold more than one, and each portfolio holds a little **portfolio cash** that counts in its value and its return. Your **execution-only account** holds securities you bought without advice — we arranged those trades but did not assess whether they suit you. Your **wallets** hold cash that is yours to spend or invest: that is what available to invest means, and it is excluded from every return in section 2. Total value converts the dollar side at the display rate above. It is a value and never carries a return, because a return across two currencies would mix investment performance with currency movement.

2 How your investments performed

Investment	You invested	You took out	What it earned	Value 1 Apr	Value 30 Jun
SA Momentum ZAR · managed · risk profile Growth	R 40,000.00	R 20,000.00	+R 9,461.94	R 248,534.86	R 275,321.65
Global Core USD · managed · risk profile Balanced	\$ 6,900.00	\$ 3,000.00	+\$ 4,072.89	\$ 40,848.90	\$ 48,559.66
Apple Inc. Common Stock USD · execution-only · bought without advice	\$ 880.10	\$ 0.00	+\$ 36.59	—	\$ 915.60

SA MOMENTUM +3.6% +3.5% after fees · +R 9,461.94 in money	GLOBAL CORE +9.5% +9.4% after fees · +\$ 4,072.89 in money	APPLE · EXECUTION-ONLY +4.2% +3.9% after fees · +\$ 36.59 in money
---	--	--

The percentage is how the investment itself performed, with the timing of your own buying and selling taken out — it answers “did my investments do well?” The money amount beside it answers “what did I make?” Returns are shown in each account's own currency and are never blended across currencies. Your Detailed Statement adds your own money-weighted return and how every figure was worked out.

3 What you own

Direct securities — execution-only, bought without advice

Holding	Shares held	Average cost	Price 30 Jun	Value 30 Jun
Apple Inc. Common Stock AAPL · US0378331005 · NASDAQ	3.0000	\$ 293.37	\$ 305.20	\$ 915.60

A position, not a period: units held, closing price and value are all as at 6 September 2026, and the percentage is what each holding was worth on that date as a share of its portfolio. Weights are rounded to one decimal. You instruct a managed portfolio, not the funds inside it; a direct security is yours to trade on its own. Your Detailed Statement adds ISIN, exchange, what you paid and the profit and loss not yet taken.

4 What you bought and sold

Managed portfolios — you instruct the portfolio, not the individual funds

Account	Instructions	Market orders	Invested	Withdrawn	Brokerage
SA Momentum · ZAR managed	2	14	R 40,000.00	R 20,000.00	R 57.37
Global Core · USD managed	5	15	\$ 6,900.00	\$ 3,000.00	\$ 18.81

Direct securities — you place the order yourself

Account	Orders	Shares bought	Invested	Sold	Brokerage
Apple · USD execution-only	2	3.0000	\$ 880.10	\$ 0.00	\$ 2.00

A portfolio instruction is split across the holdings and placed as one market order per fund. New money is put to work at the target weights; a withdrawal is taken across the holdings in their current proportions, so the shape of your portfolio is kept. A direct order is a single trade in one security, at the market price when it fills. Brokerage is charged inside each order and is already included in what you paid for your holdings — it is never billed to your wallet.

5 Income you received

Account	Distributions	Tax withheld	Cash interest	Paid to your wallet
SA Momentum · ZAR managed	R 2,884.84	R 258.19	R 48.50	R 2,675.15
Global Core · USD managed	\$ 303.23	\$ 45.48	\$ 4.38	\$ 262.13
Apple · USD execution-only	\$ 1.28	\$ 0.19	\$ 0.00	\$ 1.09

Distributions from your funds and securities, and interest on a portfolio's cash sleeve, are swept into the matching wallet, so they leave the investment account — which is why income counts as money out. United States dividends are withheld at the 15% treaty rate; South African equity distributions carry 20% dividends tax, while interest distributions are paid gross.

6 Wallet activity

Wallet	Opening balance	Money in	Money out	Closing balance	Available to invest
South Africa · ZAR	R 8,450.00	R 67,675.15	R 66,138.68	R 9,986.47	R 9,986.47
Global · USD	\$ 1,240.50	\$ 10,063.22	\$ 10,220.57	\$ 1,083.15	\$ 1,083.15

You deposited \$6,000.00 and withdrew \$2,400.00 from your Global wallet, and deposited R45,000.00 and withdrew R12,000.00 from your South African wallet. On 18 May you also moved R13,271.76 from your South African wallet to your Global wallet, which arrived as \$800.00 at a dealt rate of 16.5897 — moving money between your own wallets is not a deposit and does not affect any investment return. A dealt rate is the rate you actually got and is shown in full; the display rate on the front page is a single mid-market rate used only to convert values.

7 What you paid us

Wallet	Advice fee	Custody fee	Subscription	VAT at 15%	Total you paid
South Africa - ZAR	R 204.00	R 99.85	R 450.00	R 113.07	R 866.92
Global - USD	\$ 35.19	\$ 0.00	\$ 0.00	\$ 5.28	\$ 40.47

No fee is charged on an execution-only order. No advice fee, no platform fee and no custody fee. The only cost is brokerage, charged inside the order and shown per order in section 4 — never billed to your wallet.

The advice fee is 0.51% of each amount you invest through a managed portfolio, charged once at the time of that investment — not an ongoing charge on your balance. Your Premium subscription of R150.00 a month includes the platform fee, so there is none, and it is one charge for your whole account rather than one per account. The custody fee is 0.14% a year on South African securities, charged monthly; it is a cost passed straight through from the custodian, and there is none on the dollar side. Every rate above is quoted before VAT. Because you are resident in South Africa, South African VAT at 15% is added to all of it, whichever currency the fee is billed in. Brokerage is charged inside each order and is shown order by order in your Detailed Statement, where it belongs — it is never added to the fees above, because it never touched your wallet. Fees come out of your wallet, not your investments, which is why we show your return before and after them.

8 Notes

A managed account may hold more than one portfolio, and each portfolio is valued at units held × the closing price on 6 September 2026. An execution-only account holds securities you bought without advice, valued the same way. **Portfolio cash** sits inside a portfolio and is part of its value and its return. **Wallet cash** is yours to spend or invest, is what “available to invest” means, and is excluded from every return shown. Money into an investment account means cash used to buy securities; money out means sale proceeds and income paid back to your wallet. Percentages are shown to one decimal and may not add to exactly 100.0%. Returns for a period shorter than one year are never converted to an annual rate. Every figure here is a total — your Detailed Statement shows the same eight sections with every entry behind them.
